#### How to play

- 1- Cut the dice and glue the sides.
- 2- Divide students in groups of 3-4.
- 3- One student throws the dice and then the student has to make a sentence and act it out using the preposition the dice landed on (he/she can use items in class or their own body to demonstrate the preposition)
- 4- The winner is the student who makes grammatically correct sentences and acts them out properly.
